Course Outline

A brief outline or overview of the course content:
Insert a brief paragraph describing the course content.

A listing of the major topics to be covered with an approximate length of time allotted for their discussion:
List an outline of the major course topics including the time allotted for each topic. This should add to 15 weeks OR detail the required 45 hours of work per credit is allotted.

Course Description:
This description may be up to 400 words and should describe the course content. Think of this section as the advertisement for your course, as it will become the public face of the course in the catalog posted to LionPath and the university bulletin. This description should be durable over time and does not include delivery method, evaluation/assessments, specific days/dates, enrollments, or other limiting information.

Course Justification

Instructional, Educational, and Course Objectives:
This section should define what the student is expected to learn and what skills the student will develop.
Define what the student is expected to learn and/or the skills the student should develop. Link each objective to the evaluation method section.
Evaluation Methods:
Include a statement that explains how the achievement of the educational objective identified above will be assessed. The procedures for determining students' grades should be specifically identified.
Explain how the achievement of the course objectives will be assessed. The specific procedures for determining student grades should be identified including the approximate percentage weightings for each. The evaluation methods should link to the objectives for the course.

Relationship/Linkage of Course to Other Courses:
This statement should relate the course to existing or proposed new courses. It should provide a rationale for the level of instruction, for any prerequisites that may be specified, or for the course's role as a prerequisite for other courses.
Explain how the course relates to other courses, such as an explanation of its position in a sequence of courses. This includes the justification for a course as a prereq/ concurrent/ coreq or the justification for the particular course's prereq/ concurrent/ coreq.

Relationship of Course to Major, Option, Minor, or General Education:
This statement should explain how the course will contribute to the major, option, or minor and indicate how it may function as a service course for other departments.
Explain how the course will relate to a program or general education. This includes how you may see the course functioning for the student to gain a foundation of knowledge or perhaps how it may lead to interest in other courses or in continuing exploring a topic.

A description of any special facilities:
Describe any special facilities that units would need should they choose to offer this course. This may help a campus decide if an offering is within the available resources.

Frequency of Offering and Enrollment:
Note the semesters or number of times per year (may included approximate number of sections) the course is intended to be offered; include approximate number per section. This may aid in workload planning.

Alignment with General Education Objectives

- **EFFECTIVE COMMUNICATION** – the ability to exchange information and ideas in oral, written, and visual form in ways that allow for informed and persuasive discourse that builds trust and respect among those engaged in that exchange, and helps create environments where creative ideas and problem-solving flourish.

- **KEY LITERACIES** – the ability to identify, interpret, create, communicate and compute using materials in a variety of media and contexts. Literacy acquired in multiple areas, such as textual, quantitative, information/technology, health, intercultural, historical, aesthetic, linguistic (world languages), and scientific, enables individuals to achieve their goals, to develop their knowledge and potential, to lead healthy and productive lives, and to participate fully in their community and wider society.

- **CRITICAL AND ANALYTICAL THINKING** – the habit of mind characterized by comprehensive exploration of issues, ideas, artifacts, and events before accepting or formulating a conclusion. It is the intellectually disciplined process of conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief and action.

- **INTEGRATIVE THINKING** – the ability to synthesize knowledge across multiple domains, modes of inquiry, historical periods, and perspectives, as well as the ability to identify linkages between existing knowledge and new information. Individuals who engage in integrative thinking are able to transfer knowledge within and beyond their current contexts.

- **CREATIVE THINKING** – the capacity to synthesize existing ideas, images, or expertise in original ways and the experience of performing, making, thinking, or acting in an imaginative way that may be characterized by innovation, divergent thinking, and intellectual risk taking.

- **GLOBAL LEARNING** – the intellectually disciplined abilities to analyze similarities and differences among cultures; evaluate natural, physical, social, cultural, historical, and economic legacies and hierarchies; and engage as community members and leaders who will continue to deal with the intricacies of an ever-changing world. Individuals should acquire the ability to analyze power; identify and critique interdependent global, regional, and local cultures and systems; and evaluate the implications for people’s lives.

- **SOCIAL RESPONSIBILITY AND ETHICAL REASONING** – the ability to assess one’s own values within the social context of problems, recognize ethical issues in a variety of settings, describe how different perspectives might be applied to ethical dilemmas, and consider the ramifications of alternative actions. Individuals should acquire the self– knowledge and leadership skills needed to play a role in creating and maintaining healthy, civil, safe, and thriving communities.

What component(s) of the course will help students achieve the General Education Learning Objectives covered in the course? Provide evidence that students in the course have adequate opportunities to achieve the identified learning objectives.

Based on the boxed clicked, the GELO will appear in the text immediately above this box. Address EACH GELO individually. (Select a minimum of 2 and maximum of 4 objectives.) Be clear in addressing each objective individually. For example:

**EFFECTIVE COMMUNICATION:** List the GELO and then explain the opportunities students will have in the course to achieve the objective.

**KEY LITERACIES:** List the GELO and then explain the opportunities students will have in the course to achieve the objective.
in this course? This assessment must be included as a portion of the student's overall performance in this course. Explain how students will be assessed in attainment of learning objectives and intentionally state which GELOs would be addressed in such a way. The committee needs to see how GELOs are part of the assessment of the student's performance in the course. Be explicit in linking the GELO to the assessment strategy/type.

General Education Domain Criteria

General Education Designation: Single-Domain

GA Criteria

☑ Explain the methods of inquiry in arts fields and describe how the contributions of these fields complement inquiry in other areas

☑ Demonstrate an expanded knowledge and comprehension of the role that the arts play in various aspects of human endeavor

☒ Demonstrate competence in the creation of works of art and design
  ☑ Demonstrate competence in analysis, critical thinking and interpretive reasoning through the exploration of creative works

☑ Identify and explain the aesthetic, historic, social, and cultural significance of important works of art and critically assess creative works, their own or others’; through evaluative processes of analysis and interpretation

What components of the course will help students achieve the domain criteria selected above?

Explain the components of the course that will aid in addressing each selection. Address each of the criteria specifically. For example:

1. Explain the methods of inquiry: insert response
2. Demonstrate an expanded knowledge: insert response
3. Demonstrate competence: insert response
